

REMARKS

The office action of November 12, 2008, has been carefully considered.

It is noted that the specification is objected to for containing various informalities.

Claims 1-25, 28 and 29 are rejected under 35 U.S.C. 112, second paragraph.

Finally, it is noted that claims 1-25, 28 and 29 would be allowable if amended to overcome the rejection under 35 U.S.C. 112.

In connection with the Examiner's objection to the specification, applicant has amended the specification to address the informalities pointed out by the Examiner.

In view of these considerations it is respectfully submitted that the objection to the specification is overcome and should be withdrawn.

In view of the Examiner's rejections of the claims, applicant has amended claim 1.

It is respectfully submitted that the claims now on file particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant has amended the claims to address the instances of indefiniteness pointed out by the Examiner.

In view of these considerations it is respectfully submitted that the rejection of claims 1-25, 28 and 29 under 35 U.S.C. 112, second paragraph is overcome and should be withdrawn.

In light of the Examiner's indication that the claims contain allowable subject matter, it is submitted that the application is now in condition for allowance.

Reconsideration and allowance of the present application are respectfully requested.

Any additional fees or charges required at this time in connection with this application may be charged to Patent and
